#### Let's Marry to Keep the Love Going

The hectic lifestyle today posts that many people just do not have the time for marathon love

to find their ideal partner. In my opinion, there is not much difference between being in love and marriage. As the old saying goes: marriage is just the days after a love certificate.

I think most people tend to get married after they fall in love, i. e. they love each other and intend to keep the love forever. If you really meet someone you fall in love with immediately, why not marry him/her soon? There is no difference in the two issues for real love.

People who choose a "Flash Marriage" believe there is no time

for marathon dating when there are so many other things to be done. In addition, the issue of love is not an affair that can be guaranteed forever. Even after dating for five or eight years, nobody is confident that the love will be everlasting. If they spend a long time testing the affection, it's just to put obstacles on their own way. If the affection can't go on forever, both sides will be deeply hurt and no one can relive their past youth. Therefore, if you fall in love with someone, marry him/her, other things can be thought about later. No matter whether it is for dating or marriage, love is the most important thing.

If they are unfortunate to put an end to the wedlock, "Flash Marriage" and "Flash Divorce" are also "trouble-free". Since if the "Flash Marriage" couple divorces, they will feel less hurt when compared with those who have been together for a long time.

So, "Flash Marriage" seems more like a big gamble. Perhaps "Flash Marriage" is not suitable for everyone. Only those who have courage and right attitude can take the risk!

# Directions: Read the following paragraphs carefully, and then choose the best answer. Passage One

I must say that my greatest interest in life is studying. I would rather study than anything else. Since I left school, I have taken courses in all sorts of things. Once or twice I have done a correspondence course, but I much prefer evening classes because it's more fun that way. My latest "craze"—if you can call it that—is foreign languages. I'm learning two, not one!

Pop or popular music singers make much money. They make a CD or a tape which radio stations use in many places. Once the popular singer is heard all over the country, young people buy his or her tape. Some of the money from these tapes comes to the singer. Wherever the singer goes, all the young people want to meet him or her. Now the singer has become a national star.

It was reported that the number of deaths caused by railways in one year was 4,712. That sounds like a good argument for staying off trains, perhaps for keeping to your cars instead. But

#### Becoming a Mortgage Slave or Not

Housing prices are keeping rising, especially in many parts of the country. Hesitating to buy

a house means that you will never afford to buy your own house in the future. So the post-1980s struggle to buy their first one. They believe that it may be an affordable time for them to buy their first house, considering the job stability, the desire to settle down, and the low interest rates for the first-time buyers. Nowadays the interest rates are pretty much lower. Nobody knows whether this favourable financial policy will be changed or not. Besides, most

people have the strong desire to settle down. For those people who have strong career stability and can afford to pay the monthly mortgage, buying a house on mortgage is a feasible option. So, if your career is stable, and you are satisfied with your present situation, buying a house becomes a more attractive option.

But a lot of uncertainty about the housing market and the economy still remains. You should think about it carefully. Although a monthly mortgage payment may be comparable in some cases to a monthly rent, there are other expenses to consider. The post-80s are still getting a grasp on their future and have a constant change of lifestyle. The housing price is so high that life is hard for most people who earn just enough to pay their mortgage. They will take a very heavy financial

burden, as they have to pay their mortgage monthly. The costs for buying a house could add up to about 6% of the sale price, or roughly two or three years' worth of rents. Renting a house makes it possible to lead a comfortable life.

In conclusion, everyone has different choices about becoming a mortgage slave.

For me it happens all the time
It's a quarter after one, I'm all alone and I need you now
Said I wouldn't call but I lost all control and I need you now
And I don't know how I can do without, I just need you now
Another shot of whiskey can't stop looking at the door
Wishing you'd come sweeping in the way you did before
And I wonder if I ever cross your mind
For me it happens all the time
It's a quarter after one I'm a little drunk and I need you now

Said I wouldn't call but I lost all control and I need you now And I don't know how I can do without I just need you now Ooh...

Guess I'd rather hurt than feel nothing at all
It's a quarter after one I'm all alone and I need you now
And I said I wouldn't call but I'm a little drunk and I need you now
And I don't know how I can do without I just need you now
I just need you now
Oh baby I need you now
